IoT-Based Soil Condition Monitoring System for Supporting Precision and Sustainable Agriculture in West Java

Ayu Latifah, Dendi Ardimansah

Numerical Performance Analysis of Novel-Generation Materials for Mach-Zehnder Interferometer Applications

Dzulkiiflih, Riski Ramadani, Afiyah Nikmah, Arum Vonie Rachmawati, Hanan Zaki Alhusni, Rohim Aminullah Firdaus

Epilepsy Classification Using Support Vector Machine with Frequency Domain Feature Extraction

Hindarto Hindarto, Ade Eviyanti, Ahmad Ahfas, Egha Arya Affandi

Simulation-Based Design of LTE Indoor Networks in High-Density Building Scenarios

Ryan Prasetya Utama, Regina Leonnie, Selvi Melani, Riska Amanda, Achmad Shivan, Faiz Husnayain

Development of a Solar Autonomous Boat Navigation Guidance System for Future Swarm Unmanned-Surface-Vehicle Implementation

Denny Darlis, Nurul Fahmi Adani Syam, Aris Hartaman

LSTM-Based Daily Power Forecasting for a 1 MWp PV System in Tropical Indonesia: Toward Operational Optimization

Ali Muhtar, Syamsyarief Baqaruzi, Putty Yunesti

Explainable IoT Intrusion Detection Using Random Forest, SMOTE, and SHAP

Julfikar Mawansyah, Anik Nur Handayani, Aji Prasetya Wibawa, Triyanna Widiyaningtyas, Mokh. Sholihul Hadi, Fidyah Ajeng Wulandari

Bio-Based Surface Engineering of AISI 316L for Durable Electromedical Devices

Muhammad Akbar Hariyono, Galih Persadha, Ahmad Robittah, A'yan Sabitah
